## Professional Profile

- Data Scientist with a deep background in the financial industry.
- Significant statistics and econometrics experience from both academic course load and real-world applications.
  - Python: Standard library, Pandas, NumPy, Matplotlib, Jupyter notebook, SciPy and Scikit-learn.
  - R: Several MOOC courses on programming and statistical learning.
  - SQL databases: working experience supplemented by MOOC courses.
  - Web development: HTML5 and CSS3.
  - Familiarity with other computer programming and hardware tools due to past work: C++, VBA-Excel, Git and GitHub version control, assembly and other machine languages, CAD-CAM software and Bloomberg terminal.
  - Excellent communication skills and an experienced presenter.

## Professional Accomplishments

- Examples of past success doing quantitative analysis on large datasets:
- Assisted a diversified energy company in calculating the correct risk on their spread trading portfolio. Used numerical approximation methods to custom fit a bimodal (two humps) probability density function to their historical data. As a result, the client was able to secure a \$5 billion debt.
  - Wrote VBA code to calculate loss from excessive trading (from bid-ask spread and fees). As a result, client was able to settle a \$128 million lawsuit for \$50 million.
  - Calculated on behalf of the SEC, the potential risk on MBS (mortgage-backed securities) trading portfolios at large, U.S. banks. Received data files from each firm, wrote computer code to transform and clean the data, then conducted statistical analyses.
    - Approved the risk controls on a \$20 billion Salomon Brothers portfolio because their hedge risk stayed within the company's risk tolerance.
    - Spotted a \$500 million potential loss on Merrill Lynch's portfolio, which was beyond their risk tolerance. The company's Director of Risk Management disputed my calculations, but the company ended up reporting a loss of about \$500 million 6 months later.

## Experience

**Owner**, 10 Sigma Risk LLC, Leesburg, VA, 2011 – present  
**CEO and Co-founder**, StockWiki Inc, Palo Alto, CA, 2007 – 2010  
**Database Consultant**, Empower-Visa Services Inc., Fairfax, VA, 2001-2008  
**Senior Manager**, KPMG LLP, Washington, D.C., 1997-2001  
**Senior Derivatives Analyst**, NERA, White Plains, NY 1996-1997  
**Accountant-Economist**, SEC, Washington, D.C, 1992-1996
